

Company Overview & Divisions

Executive Summary

IDM Products, LLC is a national supply chain and manufacturing company based in Dallas, Texas. We specialize in procurement, manufacturing, asset tracking, distribution, logistics, warehousing, sustainable packaging and strategic sourcing. Our state-of-the-art manufacturing facility is home to our exclusive line of EPA-registered Easy Pro Wipes, which includes industrial, disinfectant, isopropyl, pet, and dry wipes. We are also distributors of JanSan, MRO, maintenance products, office supplies, healthcare products, foodservice disposables and various types of furniture.

Serving as the extended purchasing arm for numerous organizations, we oversee the material flow in designated locations, which drives significant process efficiencies and cost savings for our clients. What truly distinguishes us, however, is our capacity to craft unique, innovative value-added solutions that not only fulfill but surpass the requirements of an ever-changing market. Our laser-focused approach is sharply attuned to our clients' needs, enabling us to create tailored solutions to tackle their most pressing challenges.

- Warehouse management and storage services
- Additional storage space
- Array of pallet types available

Sustainable Packaging

Our Services Framework

DESIGN FOR SUSTAINABILITY

Partner with design experts to develop packaging formats to drive faster eco-friendly validation.

MATERIALS SOURCING & DEVELOPMENT

Determine the best sustainable materials for your package and source them intelligently, while factoring for price, supply, and technical performance.

IDM Packaging Solutions' expanding capabilities also incorporate manufacturing and distributing intelligent, active, rigid and sustainable packaging. We have resources and experience to deliver innovative, sustainable packaging for consumer products from food and beverage, to home and personal care. Through our carefully constructed relationships with several of the world's leading sustainable corporations, we are able to help create differentiated products addressing the requirements of a rapidly changing consumer landscape, driving both performance and customer value.

Purposeful innovation, advanced conversion capabilities and best-in-class manufacturing practices are several of the drivers enabling us to co-develop game changing rigid packaging for our customers.

Our Framework Benefits

- Design process reduces risks associated with new sustainable packaging formats.
- Our materials sourcing and development provides access to approved sources of recyclable, bio-degradable / compostable resins.
